Subject: Appreciating prompt action taken towards Discrepancies observed during Rig Sagar Gaurav visit.

Respected Sir,

We had recently visited Sagar Gaurav, which is presently located in western offshore i.e. B&S field and is assigned with drilling a well with estimated depth of 3000 mtrs, field rich in H₂S. During our visit and in follow up to our observation and meetings with OIM & MM we understand prompt corrective measures are taken.

We highly appreciate for the steps taken towards successful implementation which will go a long way towards safe work environment and achieving the designated target as per schedule, please find a list attached.

We also believe whatever falls short will be taken up in the near future, the patient hearing given & concern shown by all officers on board along with OIM was extremely healthy, giving a true feeling, "all success stories of the organization are management - staff joint venture."

With regards,
Thanking you,
Yours faithfully,

(Pradeep Mayekar)
General Secretary
