**Subject : Non availability of hot water in living quarter at SHQ platform.**

Respected Sir,

We are in receipt of a letter from SHQ on the above issue, please find copy attached for your perusal and due consideration.

The letter speaks of procurement of poor quality heating coils as well frequent failure of repaired coils is the main cause of the above plight. Presently for the past six month the problem precipitates and hot water does not flow in living quarter.

Your esteemed authority is requested to look into the matter as nothing has resulted even after bringing it to the notice of OIM and seniors visiting SHQ, employees are already under the influence of cold being exposed to usage of cold water.

Thanking you,  
Yours faithfully,

**(Pradeep Mayekar)**  
**General Secretary**

Sub : Non availability of hot water at SHQ living quarter.

Sir,. we are suffering from the problem of non availability of hot water at SHQ L/ Q from about six months, during this period of time we found that the heating coils provided for repair (new coils ) has very bad quality, in recent cases we observed that water leakage from coil brazing work. And if some coils found good, these coils also working for only two to three weeks.

We further informed to OIM about this problem time to time but still not getting good response, due to cold water for bath creating health problems like cold, running nose to personal living at SHQ L/Q, and affecting IR.

We request do the needful

Yours faithfully  
K.S. team MH asset SHP
