**Subject: Mushrooming of activities detrimental to the interest
of the organization in NSB.**

Respected Sir,

We have received a copy of complaint citing illegitimate activities hand in glove with contractors in Nhava Supply Base. Please find a copy attached which is self explanatory.

We are also enclosing photographs of the machine which compress the barrels, such facility is not available in awarded contract. Moreover electricity used in operating the machine is at the cost of ONGC.

Outflow of unaccountable resources at a time when extreme efforts of economization is called draws vigilance enquiry, we request your esteemed authority to look into the matter, if such facility is required to be given than it should be at an cost & should be approved as pre condition, while awarding contract.

Thanking you,
Yours faithfully,

Pradeep Mayekar

**(Pradeep Mayekar)
General Secretary**

Subject: Illegitimate activities and misuse of organization's infrastructure
Ref; Construction of unauthorized structure in scrap yard.

Respected Sir,

It is observed that since last so many years only selected 7 bidders take part in auction of M.S Barrels.

The strong syndicate of bidders and internal support prevent other bidders to participate in auction.

If not then why other bidders are not invited to participate in the auction of M.S. Barrels. Monopoly of

said syndicate is beyond our comprehension

We refer here clause No. 5.2 and 5.4 of E- auction(copy attached) respectively which construed as:

5.2 The buyer shall remove the materials under his own arrangements.

5.4 Time is the essence of the contract, if the performance of the bidder is not found not to be satisfactory

in terms and timely payment and lifting, ONGC reserve the right to take recourse to invoke relevant

clause of E-auction(including forfeiture of S.D. of the buyer) beside any other recourse.

As per clause number 5.2 it is clear indication to the bidder/s that for removal of material there will no

co operation from ONGC in whatsoever manner, buyer shall remove the material under his own arrangements.

Further by clause number 5.4 it is informed to the bidder/s that if found not to be satisfactory in terms of timely

payment and lifting their S.D. will be forfeited.

Contradictory to said clause head of Nahava allowed the bidders to construct structure in scrap yard

and to use power to press the barrels to ease their lifting. Attached please find images for your ready reference.

When favourism was on the cards, then what was the necessity of inclusion of said clause in E-auction.

May we request your good selves kindly to look in this matter and take necessary action, if not then we

are afraid that every body will take undue liberty to misuse the property of ONGC.

With Best Regards

FROM NBB.
