AFFILIATED TO - PETROLIUM & GAS WORKERS' FEDERATION OF INDIA

Reg. No. (By - II - 8268)

Tel. : 2659 9775

Flat No.102, 1st Floor, Acme Harmony-I, Poonam Nagar, Off. JV Link Road, Andheri (E), Mumbai - 400 093.

REF. : ONGC/KS/ 34 /2014

DATE : 19/02/2014

To,
The Director - HR,
ONGC,
Jeevan Bharati, Tower II,
New Delhi.

Subject: JCM Agenda.

Respected Sir,
While wishing you and the all members of the committee a warm and energy full New Year, ONGC (BOP) Karmachari Sanghatana takes the pleasure in submitting its agenda to be raised and discussed in the JCM called, in Ahmedabad on 2nd& 3rd March, 2014.

The agenda is categorized mainly in three parts:

- 1) Pending issues pertaining to wage policy and associated issues,
- 2) Pending issues pertaining to R&P, and
- 3) Organizational issues.

Please find copy attached for your perusal and apt consideration.

Thanking you
Yours faithfully

(Pradeep Mayekar)
General Secretary

9. CM (HR) IR, ONGC, WOU, NSE, BKC, Bandra (E), Mumbai.

AGENDA PART-I

Pending issues related to wage policy and associated issues:

Contract Labour wage revision:

We remain grateful that with the persuasion of Recognized Collectives and initiatives taken by our management we could materialize the wage revisions of the under mentioned category of employees successfully, like

- 1) Regular Employees
- 2) Contingent Employees
- 3) Tenure Employees
- 4) Medics (Doctors)
- 5) Para Medics.

Further in reference to the MOU, i.e. wage revision of contractual employees adopting Fare Wage policy, wage revision is already signed and are being implemented in other regions, so also as agreed, WOU will have separate than what is rolled out in other region, committee from HQ in coordination with Management committee from WOU had three meetings with Karmachari Sanghatana under the directives of ED, Chief – ER.

Presently the contractual employees in WOU are very restless as they feel it is already in the seventeenth year that their wage revision remains inconclusive, when it is already being rolled out in other regions. We overly feel that their restlessness is justified keeping in view the overall price escalation of essential commodities, travel expenses and also cost of accommodation education etc, especially in Mumbai.

We earnestly request your esteemed authority along with Chief – ER, that the report may be tabled at an early date so that a decision can be taken in the said JCM.

Offshore Hard Duty Allowance, Operational Allowance and Shift Allowance:

The issue of Under Ground Mining allowance, whose settlement went beyond the date of wage agreement, was unique in nature as it was extended to all employees. The exemplary effort put in by our management is highly appreciated.

Whereas in the case of above allowances pertaining to offshore going employees and employees posted in Uran and Hazira Plant is yet to be settled. We can understand DPE guidelines are coming in our way, but it was also a commitment that this will be settled in four (4) months, even after a lapse of two years nothing is being heard about it.

We need not elaborate that basis of having these allowances to above quoted employees is getting defeated, wide spread agitated feeling prevails, question looms large, “ **why take the risk of going to offshore leaving our families when the incentive effect of higher wage packet does not exist**”. Officials are either happy being transferred from Offshore, or are continuously striving to move out from here.

Patience is fast ebbing out; hence we wish that this issue may be resolved in this JCM

Diluting all disparity between 'E' & 'S' category of Employees:

- 1) Technical training for all field going supervisory category employees be at par with E0 to E3 possessing Q3, Q2 & Q1 qualification.
- 2) In case of four wheeler advance all 'S' category employee are equated with 'E0', this is not only gross injustice, it is embarrassment inflicted as well as in deviation to initial understanding when 'S' category was incorporated in our R&P. It is requested that all 'S' category be equated with parallel 'E' category.
- 3) Similarly PRP percentage be modulated, so that S2, S3, S4 are equated with parallel 'E' category.
- 4) Air facility should be at par with E2.
- 5) Under long service reward scheme 'S3' & 'S4' be equated with 'E2' to 'E4' i.e. 90 grams gold.

We have been pursuing to resolve this matter to reinstall the feeling of mutual faith, and are putting in Herculean effort to pacify our members to refrain from any agitated mood displaying more patience. It is earnestly requested that all the above issues may be resolved in this JCM.

House Building Advance:

- 1) For second housing loan the criteria of selling first flat should be dispensed with.
- 2) HBA eligibility criteria to be reduced to one year from five years, so also in view to increased repaying capacity by virtue of present wage revision the present upper capping of Rs. 35 lakhs (Rupees thirty five lakhs) be increased to Rs. 50 lakhs (Rupees fifty lakhs), and the multiplication factor be enhanced to hundred (100) times Basic + DA.
- 3) Repayment of HBA should be increased from 240 instalments to 300 instalments
- 4) Individuals considered as departmental employees getting regularized in reference to vacancies, their past service in ONGC be counted for eligibility of HBA.
- 5) Allow purchase or construction of second house in the same district through ONGC housing loan.
- 6) Loan taken from outside financial institution as five years criteria of service in ONGC not completing may please be allowed to take loan from ONGC for repayment.

Lease accommodation:

Till the reconstruction of new housing colony, lease flat may please be taken to fulfil the present requirements of newly recruited employees in executives / non executives.

Vehicle (Two and Four wheeler) Loan:

- 1) As per existing policy we are allowing our employees to purchase car with their two wheeler loan eligibility, the loan amount is too meagre for a good quality second hand car, the loan amount be enhanced to Rs. 1,50,000/- (Rupees One Lakh Fifty Thousand).
- 2) Class III and Class IV employees should also be brought under the umbrella of four wheeler loan. As you are aware that we have not recruited class IV employees for the past twenty (20) years, existing employees are all in W- IV or W- V level some are even beyond that, majority of them are performing in the capacity of class III. Four wheeler loans is not a new subject in PSU's for the above mentioned categories.
- 3) Four wheeler loan may please be enhanced to Rs. 7,00,000/- (Rupees Seven Lakhs).

Representation of union members in JCM and Bilateral meetings:

Representation of Union members in above mentioned meetings be reviewed as it remains unchanged since July 2006, invariably in WOU keeping in view its geographical constitution, which covers three states like, Maharashtra, Goa and Gujarat.

ONGC (BOP) Karmachari Sanghatana in WOU represents 2200 employees as recognized Union, individually Uran has 396 members and Hazira has 240 members which will be increasing in next few years, where as many recognized unions in total do not have as many members as Uran and Hazira.

It is earnestly requested that presently we have only four members representing in JCM and Two in bilateral meetings this may be increased to six and four as shown below:

JCM: President
General Secretary
Uran Plant
Hazira Plant
Offshore Production
Offshore Drilling.

Bilateral Meetings:
General Secretary
Observer's three: Mumbai, Uran and Hazira

Air Fare and Hotel accommodation facility:

- 1) We have been pursuing this issue for more than two years, we remain grateful that field operators going to east coast were extended the facility but our requirement remains half done as the Field operators going to Porbunder posted in Rig Sagar Jyoti, Sagar Gaurav and Sagar Shakti are still kept out of this facility.
- 2) Our Medics (Doctors) posted in offshore doing ON/OFF duty be extended check fare facility, as their presence makes difference to all on-board officials moreover the uncertainties of offshore duty as well as non-availability of train tickets causes immense inconvenience to the Doctors.

- 3) So also Marine Security Supervisors who have joined us, and are EX- NAVY personnel, all these persons travel a long distance and are required to forego at least four to five days of their OFF days on every duty cycle, neither they are getting quarters keeping in view the long pending waiting list. It will be a great relief to all the three categories mentioned above, if they are extended air fare facility. A positive decision may be taken in this JCM.

Training for class III employees:

- 1) It is observed that technical training to class III employees possessing Q3, 2, & 1 qualification have trickled down as compared to E category, even though Class III and S category employees are required to perform all technical jobs at par.
- 2) The present policy adopted for recruitment of A2 level employees is with Q2 qualification, whereas circular of technical trainings are rolled with the criteria Q2 qualification for E0 and above, this deprives all A2 level employee from training even after having same or higher qualification.
- 3) The 'S' category employees are the damned and the tortured lot as far as training is concerned.
- 4) Induction training at entry level of all class III employees be introduced **as detailed attached**.

It is earnestly requested that training policy be reviewed.

Long Service Reward Scheme, "Gold".

Presently, eligible employees are given Gold coin under the above scheme on Superannuation; this could be put to better use by any individual during family function like marriage etc. It is earnestly requested that it may be given in equal instalments i.e. on completing 15/20/25/30 years and balance on Superannuation / VRS.

Unnati Prayas:

- 1) It was assured by our Ex – C&MD Mr. Subir Raha that candidates acquiring 75% marks and more under Unnati Prayas scheme will be automatically upgraded to E1 category, a decision may be taken in this JCM **to honour the same**.

**Proposed 12 week Induction Training for JAT/AT of all
Discipline for WOU Mumbai.**

1 ST Week	1 To 5	Introduction of ONGC. Familiarisation of ONGC portals Report, Webmail. Webice	
		Familiarisation of ONGC portals, Report, Webmail. Webice, Online claims etc.	
		Offshore Safety, Safety at work place.	
		Offshore Safety, Safety at work place.	
		HUET

10 th Week	46 to 50	Multi disciplinary field familiarisation training	
11 th Week	51 to 55	Specialisation Training	
12 th Week	56 to 60	Final evaluation miscellaneous.	

:: 6 ::

- 2) Graduation acquired by class III & IV employees under the scheme may please be treated as Q1 qualified and be entered in service record accordingly, so also be considered for up gradation suitably.
- 3) Fire discipline courses at par Q2 & Q1 may be incorporated in the scheme; this will help our employees to upgrade their qualifications also.

Sahayog Trust:

- 1) All, on duty accidents of employees covered under the scheme should be eligible for reimbursement in reference to the Medical treatment taken, pending cases be reviewed and cleared for full compensation.
- 2) Marriage compensation for girl child should not refused with reasons of delayed beyond Six months, rather this criteria should be waved off, as it is losing it meaning.

Medical:

- 1) This may be extended to unmarried sister and brother who are physically and mentally handicap.
- 2) This may please be extended to dependent parents after retirement.
- 3) Medicine procurement is presently done through store procedure, this needs to be reviewed as delay in procurement of life saving drugs is causing panic, as well as certain medicines like diabetes, Hypertension cholesterol which are required 365 days and are very expensive, individual purchase draws taxation beyond Rs. 15,000/-. All these medicines are normally not available with our dispensary as they are purchased through stores. This facility has become a big subject of inconvenience.

Talk time Facility to President / General Secretary and Secretaries of Recognized Unions:

- 1) Talk time available as an employee is not extended to the above individuals, even though the circular does not speaks of the same, which provides talk time separately. This may please be clarified.

Laptop, Talk time and Handset policy be reviewed:

- 2) Class III & IV employees be extended Laptop facility with data card / dongle, this has been our long standing demand, in our total population their percentage will not be more than 10 to 12%.
- 3) Cost of Mobile handsets extended to all cadre of class III and 'S' category employees is too meagre, hence this may be reviewed, so also talk time be increased to Rs.1500/- per month to all non executives.

Increase in approvals for the undermentioned items:

- 1) Spectacles by 100%
- 2) Briefcase by 100% and timing reduced to 2 years
- 3) White good amount by 100%

Election of EWC in WOU:

It is long time the previous elected committee's tenure has matured, since then the EWC remains non functional, whereas other regions are having the same, the employees of WOU are missing out on various gatherings, cultural programs etc. It is earnestly requested that elections are held, and EWC in WOU be restored.

Logistics and Panelling of hotels in East Coast:

Three of our Rigs, Sagar Ratna, Bhusan and Vijay are functioning in East coast, the course adapted for choppers to reach rigs is not only too tedious for individuals, but also at an avoidable huge cost incurred for choppers to travel that distance. It takes Two (2) hours to reach Sagar Ratna, meticulous planning and scheduling is the call of the hour.

Panelling of hotels needs to be done through WOU as all the manpower are from this region, requirements are best discussed with I/C HR, (DS), WOU, to avoid unnecessary inconvenience. Presently a wide spread dissatisfaction prevails among all our employees who are travelling to East coast with the arrangements done through Rajahmundry.

Employees working on the said Rigs and not residents of Mumbai are not allowed to travel through Mumbai, it is a known fact that for various administrative requirements they have to come to Mumbai, hence it is requested that they may be allowed to travel through Mumbai.

One time option to reverse back to “S” category:

This issue was discussed in our last wage revision meetings, as increasingly individuals with Q3 and Q2 qualification that they should have adopted their career growth in “S” category, and this was the demand from General Secretaries of recognized Unions of all regions, This may please be decided in this JCM and individuals be allowed for the said option.

Up Gradation of Fireman from 1/1/1997:

This issue has precipitated for too long, individuals having requisite qualification to be up graded to class III, this is already being implemented in other regions, a decision may please be taken in this JCM.

Blood Donation Incentive:

Blood donation incentive amount may please be increased from Rs. 250 to Rs. 500.

Quota for recruitment of PAPs, and Children’s of superannuated employees:

The issue of recruiting PAPs have been drawing large scale unrest among locals, mochas with political colour are arranged, and our local management are put to embracement and threats, need for an solution in this direction is the call of the day, we are recruiting class III employees for some time and shall continue, hence a demand for quota off course not bypassing our “R&P” policies.

Vacancies generated in class IV will accommodate more people.

We have facilities for DODs and compensation like CSSS, policy benefit through LIC (EL Encashment), It is also largely felt that quota for children’s of superannuated employees, Honouring more than three decades of service rendered to the organization, this proposal is also against vacancies and without any relaxation of “R&P” policies.

Retention of mobile number after superannuation:

It was a unique gesture to extend this facility to all cadre of non executives, it is earnestly requested that said facility be retain beyond superannuation.

EL encashment:

EL encashment may be allowed twice a year.

Direct employees:

We remain grateful that giving departmental candidate status, management is giving all relaxation to recruit Direct Employees

It has remained our continuous endeavour to regularise these direct employees falling back on MRP-1980. Pending court case we request your esteemed authority to constitute a high power committee in settling the issue of regularizing the Direct Employees outside court. This will save unnecessary unpleasanties on both sides.

Contingent employees:

Medical leave should be given to contingent employees as they are not covered under ESIC.

Dearness allowance should be given to contingent employees at par with ONGC employees.

Most importantly as a measure of Interim Relief 50% DA merger is done without delay, due to the long tenure of wage revision, the rate of change in wages does match the pace of ever rising price index.

Unwarranted Steep rise in cess charges for gas and Subsidy to downstream companies, has blanketed our incremental profit, this demands a completely re-modulating of PRP policy, for the year 2012-2013, 40% PRP be calculated minus the above conditions of cess and subsidy imposed on us and be paid to all employees.

Agenda Part-II

Pending issues related to R&P policy.

Revoking of MOU 2004:

This has caused wide spread discontent among various categories of employees and also effected the work atmosphere in all offshore and onshore installations,

- 1) Abolition of recruitment of top of class III cadre possessing Diploma (Q2) qualification and dropping their induction to A2 level, thus reaching at E0 level will take eighteen (18) years instead of four (4) years. Whereas in other PSEs diploma holders are inducted at top of class III scale,
- 2) This has confirmed our fears i.e. recruitment of Q3 qualified (NCTVT) personnel has greatly reduced.
- 3) Rigman who were recruited at A3 level are brought down at A1 level at cost of twelve (12) years of service, more over it needs to be understood that it is physically impossible to perform Ragman's job for such a long tenure.
- 4) So also JATs, this new post was agreed with mutual understanding that it will be of three (3) years duration, extending it six (6) years duration is gross injustice and breach of faith.
- 5) Implementation of above disputable MOU has conceived few thousand dissatisfied employees, DETA has been constituted with a single point programme of opposing the above agreement for diploma holders, the above MOU is not only effecting the employees is also detrimental to the organization, mainly at a time when we have so many macro problems, to count a few OIL pricing, subsidy etc.
- 6) During the process of inducting of Q2 qualified at A2 level, it is observed substantial member of candidates are having Q1 qualification. Those employees being departmental candidates should be given **relaxation and reservation** in induction.

Medical:

- 1) Not averse to the policy of recruiting Pharmacists with 10+2+ diploma as the eligibility criteria for admission in Diploma in Pharmacy is 10+2, but this was enforced w.e.f. 1992, hence it is requested that officials who have joined ONGC prior to 1992 with 10+diploma, they may be considered as Q2 qualified by giving one time relaxation and treating them at par with other Q2 for career growth, removing their present capping at E3 level.
- 2) Floating of vacancies for Pharmacists after necessary corrections is pending for more than two years, constraints may please be shared and do the needful at the earliest, a policy decision may be taken so that departmental candidates are not deprived of an equal opportunity, with due age relaxation. **This employees being departmental candidates should be given relaxation and reservation also in induction at A2 level.**
- 3) For the past three years of recruitment at both levels, i.e. Class I & class III, population in offshore installation has largely multiplied, this circumstances demands ONGC Doctors hence shifting from Medics, Regular Doctors be appointed.

Job Linked Tests:

- 1) During last wage revision meetings many job linked allowances were discontinued with the logic that they have become obsolete, so also it was agreed that job link test will be discontinued as stenography has become obsolete all over Maharashtra even stenography institute have closed down. This may please be resolved in this JCM.
- 2) Employees who have cleared their written test to be upgraded through DPC for E0 and unfortunately could not clear oral test, in their second attempt be exempted from written test.

Recruitment of Departmental candidates:

- 1) Date of written test across the country should be same for A1 & A2 category this will avoid violent local complication, like we had to experience in Assam.
- 2) This will prevent applications of mutual transfers and multiplicity of administrative procedures.

- 3) R & P procedures for departmental candidates should be strictly followed; vacancies should first be circulated within the organization, after completing all procedures for Departmental Candidates, if posts are still available we should go for advertisement.
- 4) Eligible contractual Employees deployed in ONGC installation and fulfilling the qualification criteria should be permitted to apply, they should be given age relaxation.

Recruitment of class four Employees:

- 1) We remain grateful that after long deliberation recruitment was implemented at class III level, recruitment of “W” level employees is long overdue; process may be initiated without further delay. The need was surfaced by all General Secretaries at the recognized Union forum during our last wage revision meetings.

Acceptance / Incorporation and Deletion of various qualifications for recruitment:

- 1) Diploma in Computer Technology, Industrial Electronics, Digital Electronics, to be considered as eligible qualification for recruitment, mainly in E&T and Infocom discipline.
- 2) When divergent NCTVT qualifications even though not relevant to the job nature of Rigman is accepted than NCTVT in Instrument Mechanic/ Instrumentation (Chemical Industry) should also be accepted as eligible qualification. This was discussed with D- HR in Mumbai and was principally agreed, a view from R&P, HQ is yet to be rolled out. This may be resolved in the JCM.
- 3) Stenography qualification should be deleted from R&P as this has become absolute, it is near impossible to acquire this qualification, as all institutions private and or government have closed down.

Recruitment for Hazira Plant among locals:

- 1) We will be advertising for vacancies in Hazira Plant in the near future , expectedly in the month of 2014, keeping in mind the recent strike, we request that the under mentioned are noted seriously to avoid any political unrest,

- A) Recruitment should be done among locals and should be done at Hazira only.
- B) Age relaxation to be given to contractual Employees deployed in the plant, mainly in view to their long service rendered and rich experience.

Promotions:

- 1) Promotions from Topman to E0 are denied to a group of employees who had opted for Ragman's assignment from Roustabout as requirement surfaced by management, quoting they do not possess qualification in line. Promotion with relaxation may be considered and the issue be resolved in this JCM, as this has precipitated far too long.
- 2) Employees are refused promotions stating qualification not in line, this approach needs to be reviewed, as postings are management prerogative, in such case it should be ensured that individuals postings be given in line with his qualification, Pending cases be resolved in this JCM, or **DPC should be performance based.**
- 3) 'W' level be extended to W-8, W-9 and 'S' level be extended to S-5 & S-6.

Change in nomenclature and up gradation:

- 1) Employees with Q1,2&3 qualification and designated as Class IV should be upgraded, this issue has precipitated for too long, a large group of such employees are existing since their inception, they are directed and are required to look into all technical / maintenance jobs, that are performed by Class III, E0 and above officers.
- 2) Existing Class IV employees and beneficiary of 2007 wage revision are exposed to severe embracement in the society because of the existing nomenclature, while seeking admission for their children's higher education or while approaching financial institutes for loans, as their salary slips integrity is questioned in reference to their designation, are promptly asked to authenticate by getting signatures or certificate from employer. A decision may be taken in this direction.
- 3) Up Gradation reservation of 25% On acquiring Q3 qualification.

Conversion of under mentioned posts for recruitment;

- 1) During recent recruitment we could get candidates for the post of:

A) stenographer, this may be converted to AG (HR),

B) AT (Boiler), this may be converted to JAT (Boiler)

This issue was discussed with D – HR during his visit in Mumbai and were principally agreed, an early decision will give an opportunity to the left out departmental employees, it is earnestly requested that a decision be taken in this JCM, and vacancies be floated in the forth coming advertisement for WOU.

Tenure Employees:

- 1) It was one the best decision taken by D- HR to dispense with the recruitment of tenure employees, and we highly appreciated for the prompt action taken in implementing the same. In view to our deliberation, we also welcome the view taken that all departmental candidates were recruited with certain relaxation. Unfortunately a counted few did not find themselves in the successful list, it is further requested that steps may be taken in the direction that all the left out be regularized in the forth coming vacancies.
- 2) Total eradication of Tenure employees will reduce the length of changes raised, like:
 - A) Length of service to be increased to 60 yrs.
 - B) Offshore hard duty allowance be given at par i.e. 33%
 - C) HRA be given as per DPE guidelines i.e. 30%.
 - D) Four years tenure to be reviewed etc.
- 3) While shifting from one completed tenure (4 yrs.) to the next, if there is gap due to procedural requirement the tenure employment is not reviewed, this policy may please be reviewed. Pending cases of tenure base employees may please be released.

AGENDA PART-III

Organizational issues:

1) Crude Oil pricing and Subsidy;

Oil subsidies to aid downstream oil marketing companies running in to thousands of crores of rupees have crippled the balance sheet of ONGC and dented very severely its ability to be the torch bearer of the country's efforts to achieve Energy self sufficiency.

Bleeding from the front

ONGC's share of under recovery was the highest among upstream companies in FY12

Note: Figures in ₹ crore

Source: ONGC Results Report

The figure is expected to balloon to Rs 60,000 crores. in FY-2013. Due to lack of clarity in subsidy sharing mechanism, ONGC is not in a position to plan its cash flows or to adopt a visionary perspective in its futuristic planning process.

Discoveries in Mumbai High and KG basin on the east coast can produce nearly 70 million tons over a period of time if the price is right, by undertaking redevelopment programmes on a continual basis according to technological developments.

The subsidies and pricing warrant an urgent review and a drastic reduction of burden on ONGC need to be undertaken to save the company from a total collapse.

2) Purchase of Rigs and Supply boats:

WOU authorities from Drilling Services are continuously trying to infuse the idea, justifying its logics for purchase of rigs and supply boats, but this is not synchronizing with the think tank of our board.

When govt. Is busy bleeding ONGC by inappropriate pricing of OIL & GAS, along with inordinate Subsidies, we are internally bleeding it by continuing with the logic of Contract Rigs and Supply boats.

It is earnestly requested to share with us by being more transparent, why we are not shifting our concepts of have our own rigs and supply boats.

3) Paintings in offshore and onshore installations:

We work in sea whether condition either on shore or be it in sea, how important is painting hopefully does not needs elaboration, but in total contradiction of all logics we have failed in painting our installations for the past five years, endangering all process installations as well as our Manpower, referred to as our most valued assets.

Once again it is not awarding contracts at the right time, but being puppets in the hands of contractors.

4) Catering System and Revamping of Galleys and Canteens:

Nothing could be as precarious as the above subject is; we cut a shameful picture of a Maharatna company in front of petty contractors, we attribute this as sheer negligence, all other revamping, and modernization by adopting new technology to maintain production level is most welcome, the above need is equally crucial, a blind eye on this area is making things very volatile, a detailed deliberation is demanded to arrest the chaotic circumstances.

5) Review of L1 contractual system and defining minimum manpower:

We need to shift over to system that will authorize us to dictate our terms to ensure quality, as this L1 system slowly compromises on quality service loosing consistency, so also minimum manpower needs to be defined, contractors to raise their profits do not employ apt manpower, this only causes inconvenience at the user end, overlooking all labour laws. "Accountability loses its integrity".

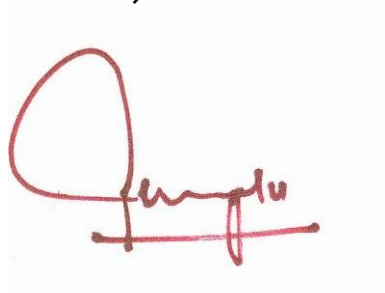

6) Construction of Housing colony and acquiring flats on lease:

In WOU more than 1500 executives non- executives have joined in the past three years, and we have long queue of application for quarters, this prompts for an early decision to reconstruct the under mentioned colonies at the earliest. As advised this colonies are vacated by the occupant employees:

A) Vartak Nagar	Thane
B) Amrit Nagar	Ghatkopar
C) Navghar Road	Mulund (East)
D) Dixit Road	Vile Parle (East)
E) Gokul Dham	Goregaon (East)
F) Jeevan Beema Nagar	Borivali (East)
G) CBD Belapur	CBD
H) Panvel ONGC Colony	Panvel

Till such time this colonies are reconstructed it is earnestly requested that flats be taken on lease and accommodation be provided to all executive & non executives waiting in queue.

Thanks,

**(Pradeep Mayekar)
General Secretary**

9. CM (HR) IR, ONGC, WOU, NSE, BKC, Bandra (E), Mumbai.

Additional clauses on the issues indicated below:

House Building Advance :

- 1) For second housing loan the criteria of selling first flat should be dispensed with. Instalments of 2nd HBA should be proportionate to remaining service period. Presently maximum nos. of instalments are 90.
- 2) Bridge loan should be repayable through ONGC's enhanced loan amount "As permission for bridge loan is given by ONGC"

Training for class III and Class IV employees :

- 1) Job oriented training should be introduce for all class III and class IV employees.

Unnati Prayas :

- 1) Compensation should be one time promotion to the next post.

Medical :

- 1) Spectacles / contact lenses reimbursement should be applied from joining (Presently application after one year of service)

Mobile :

- 1) Cost of mobile handsets extended to all cadre of class III, class IV and 'S' category employees is too meagre, hence this may be reviewed, so also talk time be increased to Rs. 1500/- per month to all non executives.

Election of EWC in WOU :

- 1) It is long time the previous elected committee's tenure has matured, since then the EWC remains non functional, whereas other regions are having the same, the employees of WOU are missing out on various gatherings, cultural programs etc. It is earnestly requested that elections are held, and EWC in WOU be restored.

Revoking of MOU 2004 :

- 1) Criteria of 60% for acquiring higher qualification may be abolish immediately
- 2) Job link test should be abolished for promotion to E-0 level and regular promotion. (In some discipline trade test not covered under this, needs reconsideration)

Medical :

- 1) Nursing care & attendant : Presently reimbursement of home nursing care is allowed vide circular no. ONGC/ER/CP/MED/024 dated 01/09/2010 and further to 0064/2012. Please find copy enclosed. Unfortunately reimbursement nursing care for inpatient is not available and are compensated as per CS (MA) rules 1944, which are too meagre hence may be incorporated at par with home nursing & attendant care.

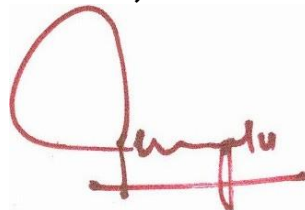

Recruitment of Departmental Candidates :

- 1) Qualified departmental candidate should be treated at par with campus candidates. No written test. There should be separate criteria for eligible departmental candidates as they are rich in experiences. This may also prevent attrition of new Graduates who have joined at AT level.

Hazira Plant :

- 7) Renovation / revamping of housing colonies of Hazira Phase - I, II & Bachelor accommodation as per building construction and maintenance policy 2006.
- 8) 'A' type quarters should be dispensed-off.
- 9) Preference should be given to allot 'B' type quarters where vacant 'B' type quarters are available to Class-III / IV.

Thanks,

**(Pradeep Mayekar)
General Secretary**
