**Sub.: Arresting the ever deterioration of Galley and facilitating
NQO Platform with an appropriate gymnasium**

Respected Sir,

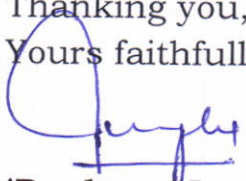

We are in receipt of letter from our employees in NQO Platform, a copy of the same we are enclosing for your perusal and speedy consideration.

We fully acknowledge the fact that all installation in offshore are engaged in various activities so as to maintain and enhance our production levels, having macro pressures from our Ministry. We also know that it will be too immature to quote the mapping of priorities, to a colossal administrator that we experience in you, yet through this letter we wish to request your esteemed authority to advice authorities at appropriate level to expedite the contents of the letter enclosed, that will largely pacify the feeling of neglect and heart burn of the employees of NQO .

M/s. VK offshore is already being awarded the contract of revamping all galleys of our production platform to the tune of Rs. 14 Cr., with the precondition that the jobs should be complete within 18 months, the progress in painstakingly low, if not cautioned they will hopelessly fail the given target dates.

So also it is requested to do the needful on the gymnasium front as surfaced in the enclosed letter.

Thanking you,
Yours faithfully,

(Pradeep Mayekar)
General Secretary

Sub: Welfare Issues at NQ Complex

Respected Sir,

NQO complex is the largest Oil producing platform from a single location. We, as Family members of NQ complex takes pride in this fact.

Irrespective of the fact, certain issues need attention for the welfare of employees.

Following are the points which need earliest attention.

1. Failure & Deterioration of Galley

On an average, POB at NQO Complex is around 180 + persons including the contract personnel. However, facility & equipments available exists for about 140 persons.

- Cooking equipments used in the kitchen are malfunctioning on a frequent basis & is not working in full capacity. As a result of this, only 5 Electrical Cooking equipments (Hot Ovens) out of 13 are in fully working condition.
- Replacement of these equipments had been planned in NQ RC Phase –II but the condition of these equipments is so precarious that it may fail to work anytime. It seems from physical condition that these will not last till NQ RC Phase –II is executed.

Hence, it is requested to initiate a fresh procurement of the kitchen equipments at the earliest so as to sustain the hygiene & requirements of the personnel on board.

Following equipments need to be replaced / required / repairmen at the earliest:

- a. Hot Ovens (Bhattis) along with Coils
- b. Aqua Guard R/O
- c. Atta Making m/c
- d. Wet Grinder
- e. Counter Top Food Warming equipment
- f. Big Oven
- g. Deep Fryer
- h. Microwave
- i. Hot cold water dispenser machine
- j. Deep Freezer (Not maintaining required Temperature)
- k. Cutleries
