**Subject: Unsafe working conditions continues to prevail in B-193 , a matter of serious concern.**

Respected Sir,

We immensely appreciate about your concern and all the steps taken mainly suspension of H2S rich gas operations so as to reduce chances of fatal accidents.

Matter of concern is that unsafe working conditions still prevails as the incinerator still remains to be rectified, this also exposes the Assets operational productivity losses. Moreover associated gas with oil is mainly very rich in H2S which is still burnt directly. It is earnestly requested that the incinerator be repaired or replaced which ever is possible earlier as it takes care of both safety and production.

We are enclosing the copy of the employee's letter from B-193 received by us tabling their apprehensions for your perusal and speedy consideration.

Thanking you,  
Yours faithfully,

O/c
