**Subject : Request to install Bunk House at MNP-MH Asset as it is operational requirement.**

Respected Sir,

We are in a receipt of request letter from the crew members of process department in MNP platform for providing "**Bunk House**". Please find enclosed the copy of the same for your perusal. They are continuously requesting for **bunk house** from last three years which has fallen in to deaf ears. There is high intensity sound prevails on platform which is facing by crew during their 12 hrs duty. This type of **bunk houses** are already provided to every process complex in the Mumbai High Field.

The provision of bunk house is operational requirement as these crew members are working day & night during monsoon & winter season. The crew has requested computer system, walkie-talkie charging point, (VHF), intercom telephone watch, food storage cupboard and shoe rack etc. in the **bunk house**. As you are aware the monsoon is knocking the door and expected in next week, speedy action is required for procurement of "**Bunk House**".

:: 2 ::

Your esteemed authority is requested to look into the matter and urgent steps are to be taken to provide "Bunk House" on MNP as they are requesting from last 3 years.

Thanking you,  
Yours faithfully,

**(Pradeep Mayekar)**  
**General Secretary**

To,

The General Secretary,

Karmachari Sanghatna, Mumbai.

Subject :- Installation of Bunk House at MNP Platform.

Respected sir,

We the undersigned are the staff members of Process department working at MNP platform having 7 days night and day shift respectively. Actually, we had no option other than writing this letter to you because despite our patient approach regarding this matter from the last 3 years, there has been no action taken by the platform management and just assurance has been given by them.

The platform managers talk about safety, PME but without a proper bunk house during monsoons, winter season does not quote it right. Without bunkhouse, the main problem is the high intensity sound which we face continuously during the 12 Hrs shift. Also we would like to bring in your notice that process is the only department in which the staff members are devoid of their separate computer system.

Sir, we do not need a formality type bunk house, but need a proper sound proof, A.C. bunk house with at least basic amenities such as computer system, walkie-talkie charging points (VHF), Intercom telephone, watch, food storage cupboard and shoe rack etc. As per our knowledge apart from MHN Platform in every complex there is a bunk house provided for the process people.

So, we request you to put our issue in your top priority list and come to a conclusion as early as possible.

Thanking you.

Yours faithfully,
