Subject : Complaint regarding poor working of HVAC systems on ICW living quarters at level "One and Three".

Respected Sir,

This has reference to the complain letter received from crew of ICP regarding poor working of HVAC system on ICW living quarters at level one and three, I am more than assured that your authority is fully aware that this complain has not popped up for the first time, neither this complain lives only in ICP, it is like an epidemic spread almost on all platforms, and we have been receiving complains about HVAC for over a decade. Please find enclosed the copy of recent complain from ICP for your perusal.

This complaint of HVAC has an uncanny consistency, persisting over a decade, we do not claim it was never heard and nothing was done, the job done is always patch work, like the roads during rainy season in any city. What can be the consequence due to inadequate air conditioning on platform crew, really does not need elaboration to your authority, yet we are surfacing the ground level facts, keeping in view the aging installations and its demands in various activities towards minimizing down time and maintaining production levels, it completely drains out every individual mentally and physically, and the prevailing conditions results lack of proper sleep, which can not only affect productivity of the team or the platform, can also lead to fatal accident.

G.M.*

:: 02 ::

The requirement has been raised by concern HVAC department since 2003/2004 for complete revamping of HAVC system in ICP complex, unfortunately ICW living quarters is partially left out. Initiating the file to replace the AHU at ICW seems to be the only solution and should be carried out on war footing. You need to accept every tolerance level has saturation, I am sure your authority will appreciate that even when the complain continues over an decade we have displayed extreme patience, having faith in you, other Asset Managers including Director (Offshore).

Your esteemed authority is requested to look into the matter and concern authorities may please be given direction to initiate the file for procurement of new AHU on ICW to dilute dissatisfaction / discontentment among the workers before unrest spreads. Reasons of, Technical and administrative delays cannot support itself any more.

Thanking you,
Yours faithfully,

(Pradeep Mayekar)
General Secretary
