**Subject: Supply of Contaminated drinking water in Panvel workshop of logging services.**

Respected Sir,

We are in a receipt of letter from our joint secretary Shri. Pankaj Lavekar and employees working in Panvel base of logging services. Please find enclosed the copy of the same for your perusal.

It has been brought to our notice that the drinking water supplied in workshop of logging services is contaminated. Water storage tank is not cleaned moreover the water purifier at workshop is outdated and needs replacement immediately. The cost of the industrial aqua guard is not more than Rs. 10000/- (Rupees Ten thousand only). There are more than 70 employees including staff and officers are working in the department. The "**Aqua Guard**" must be changed every after two years and during two years servicing contract must be awarded so that filter can be changed after every three months.

In addition to these employees have requested to give space for dining in the department. During my visit to your office on 15/3/2018, we have located the space which can reserved for canteen. It is pertinent to mention here that we are spending sizable fund for providing drinking water in the schools and rural area under CSR scheme, which is highly appreciated too.

Unfortunate that the philosophy, "**charity begins at home**" has been overlooked, with the number of employees functioning in the department the neglect of cleaning of water tank neither non replacement of the Industrial "**Aqua Guards**" and continuing to use contaminated water for drinking will have multiple health hazards could be fetal too.

Your esteemed authority is requested to kindly look into the matter and action must be initiated for procurement of "**Industrial Aqua Guards**" and canteen space with discussion with our employees working in the logging base.

Thanking you,  
Yours faithfully,

*o/c*

  
**(Pradeep Mayekar)**  
**General Secretary**
