Advisory

Sub: Advisory for Travelling to Offshore by Helicopter

The following guidelines are required to be followed for travelling by Helicopters to offshore locations:

1. All personnel deputed for offshore duty must be trained in HUET and SAS/ RAS.
2. The personnel deputed for offshore assignments must comply with the medical and physical fitness criteria as mentioned in office Order (28/2017) dated 5th September 2017.
3. The safety briefing prior to boarding the helicopters shall include protective equipment, embarking and disembarking the helicopter, with specific emphasis on avoidance of rotors & propellers and also actions to be taken during emergencies.
4. Before boarding the helicopter, passengers must be briefed by the Pilot. The briefing shall include location and use of emergency equipment, normal and emergency exits, flight details, etc.
5. All the inflatable life jackets will be checked prior to sortie. It shall be ensured by the Pilot that all passengers have donned the life jacket and fastened properly. It shall also be ensured that passengers been briefed about its usage in the event of emergency.
6. Passengers should be seated to facilitate fast evacuation in an event of emergency. Such seating arrangement shall be ensured by Air Logistics official at helibase and by HLO at offshore installations based on HUET & SAS training experience of the passengers
7. One passenger or crewman in the passenger cabin shall be equipped and familiarised with a headset for communication with Pilots and should be marked as the lead passenger.
8. Embarking and disembarking from the helicopter will be physically supervised by a ground safety officer at helibase and by HLO at offshore installation.
9. Passengers are to be briefed by the Pilot, after any sudden descent, return to base or any other event that may cause concern.
